Scale Smarter: The 3PL WMS Built for Growth

Engineered for Easy™

Datex Footprint® WMS | Purpose-Built for Multi-Client, Multi-Facility Operations

Third-party logistics (3PL) providers must manage diverse clients, inventory types, and fulfillment models across multiple facilities to stay competitive and deliver consistent value. From tailoring labels, billing, and reports to configuring specific processes required by clients, being able to adapt your WMS rapidly and cost effectively is crucial to customer satisfaction.

Too many warehouse management systems weren't designed for 3PLs, and it shows. That's why **Datex Footprint® WMS** was built from the ground up to support the complexity, speed, and service levels today's logistics providers demand.

Improve Operational Efficiency

Increase visibility, reduce waste, errors and risk, lower costs, and improve throughput.

Maximize Revenue Capture

Go live faster, tailor workflows, capture and bill for all your value-added services.

Integrate Seamlessly

Integrate directly with ERPs, TMS, shopping carts, EDI, APIs, and your entire tech stack.

Overview of Capabilities

Labor Optimization

Simplify operations with tailored workflows and quick onboarding.

Cartonization

Use analytics to automate packaging, reduce costs, and optimize carton fit.

Inventory Management

Centralize data and automate processes for accurate inventory tracking.

Capture Every Billable Activity

Eliminate underbilling and ensure full revenue capture with our robust billing engine.

Data Management

Leverage AIDC tech for real-time visibility and order accuracy.

Quality Control

Automate tracking to minimize damage and ensure compliance.

Track & Trace

Monitor every step of the journey from production to delivery in real-time.

Accelerate Time to Revenue

Enable faster onboarding of customers and staff with an intuitive, configurable interface.

Who We Are

Datex is a SaaS platform provider that specializes in making Warehouse Management Software (WMS) easier for operators in complex, regulated third-party logistics, food and beverage, life science, and industrial industry segments.

Based in Florida, we have over 45 years of experience, and a dedicated team focused on simplifying warehouse operations, serving over 200 clients across the United States and other global markets.
