# Raise a Glass to Better Wine Distribution

Engineered for Easy™

## Specialized WMS for 3PLs Serving Wineries & Wine Retailers

The wine and spirits supply chain is complex and highly regulated, requiring precise handling from start to finish. To avoid delays, spoilage, or damage, warehouse operators rely on accurate forecasting, tight inventory control, and proper transport planning. Fragile goods like wine demand temperature-controlled storage and secure packaging to protect quality and keep deliveries on schedule.

Datex brings decades of experience helping wineries and distributors manage their wine distribution and logistics. Footprint® WMS supports temperature-controlled storage, enforces FIFO/FEFO, and provides lot and compliance traceability to meet regulatory requirements and manage recalls or audits efficiently.

### Ensured Compliance

Handle federal, state, and local shipping laws with built-in quality checks and digital audit trails.

### Automated Quality Control

Improve quality control, prevent issues early, and increase customer satisfaction.

### Effective Inventory Management

Easily manage inventory complexities; high volume of SKUs, high value inventory and seasonal fluctuations.

# Overview of Capabilities

## Manage Inventory by Winery & Vineyard

Tailored workflows and unique parameters for each winery's storage, orders, and shipping.

## Precision Lot & Vintage Tracking

Manage unique vintage codes, lots, special packaging, labeling, handling and storage to protect wine quality and compliance.

## Temperature-Controlled Inventory Management

Automate FIFO/FEFO, temperature-sensitive SKUs, ensure integrity from dock to door.

## Flexible Billing for 3PL Services

Custom billing rules for storage, handling, packing, B2B and DTC orders.

## Seamless Integrations

Connect with popular winery ERPs, e-commerce platforms, and carriers and create unique shipping rules.

## Compliance & Reporting

Built-in support for compliance docs, custom reports, and B2B/B2C regulatory requirements.

# Who We Are

Datex is a warehouse management SaaS firm that serves operators in tightly controlled third-party logistics, food and beverage, life sciences and industrial industry segments.

Driven to make warehouse operations and growth as easy as possible, Datex is best known for its Footprint WMS platform: an intuitive, integrated cloud solution tailored to logistics providers and built to scale. Founded in 1978 and based in Florida, Datex today serves over 200 clients across the United States and other global markets.
